

WHAT IS CYBERBULLYING?

SafetyComm.
SOUTH SUDAN

Cyberbullying is a type of bullying that involves using electronic communication technologies to harass, intimidate, or threaten someone.

It can occur through various digital platforms such as social media, text messages, online forums, email, and gaming platforms.

ABOUT SAFETYCOMM

SafetyComm is a platform that works on combating cyber threats to citizens in South Sudan by providing a support system to mitigate harmful cyber trends. SafetyComm supports victims of online harm, creates awareness, and provides capacity building to various governmental, non-governmental, and private sector actors in South Sudan.

Established in 2021 by #defyhatenow and funded by the National Communication Authority, SafetyComm has supported over 250 cyber incidents to date.

SafetyComm operates the only publicly available cyber support Centre, which continues to act as a vital support line to citizens and institutions in the country.
